

Prathamesh Ranjit Salokhe

AI & Data Science Undergraduate | Cloud Enthusiast | Microsoft Azure & AWS

prathameshsalokhe901@gmail.com | +91 7768960392 | [GitHub](#) | [LinkedIn](#) | Indian Citizen, eligible to work in India

Profile

AI & Data Science undergraduate with hands-on experience in Microsoft Azure and AWS cloud platforms. Holds an active **Azure Student Developer Account** and completed the **AWS Academy Data Engineering** program (40 hrs). Won the **Microsoft Learn Students' Club Hackathon** (Hack AI Blitz, AI NEXUS 2025) with an Azure-integrated AI solution. Passionate about cloud infrastructure, datacenter technologies, and building reliable scalable systems. Proficient in English (written & oral); flexible for non-standard hours.

Technical Skills

Cloud & Infrastructure: Microsoft Azure (VMs, Storage, App Services, Student Dev. Account), AWS (S3, Glue, Redshift, Lake Formation, Data Engineering), IBM Cloud, GCP, ETL Pipelines, Data Warehousing

Programming: Python, Java, C, SQL, HTML, CSS, OOP

Data & Analytics: EDA, Data Cleaning, Validation, KPI Tracking, Pandas, NumPy, Power BI, Tableau, Excel

Tools & Frameworks: Git, GitHub, MySQL, Firebase, OpenCV, Selenium, Streamlit, Bootstrap 5

Achievements

Winner — Hack AI Blitz, AI NEXUS 2025

Jan 2025

Microsoft Learn Students' Club, Walchand College of Engineering, Sangli

- Won hackathon by deploying an Azure-integrated AI solution; demonstrated cloud infrastructure skills under competition constraints
- Attended cutting-edge AI sessions and showcased technical innovation within the Microsoft ecosystem

Experience

Generative AI & Data Intern — Sunbeam Infotech Pvt. Ltd., Pune

Dec 2025 – Jan 2026

- Processed and cleaned structured datasets; built data-driven applications with AI logic and Azure-hosted cloud components
- Developed interactive dashboards for insight visualization; gained experience in automation pipelines and cloud deployment workflows

AI-ML Virtual Internship — Google for Developers × EduSkills

Jul 2025 – Sep 2025

- Applied EDA, preprocessing, and ML modeling across multiple datasets; built end-to-end analytical workflows on cloud-hosted environments

Projects

Azure Cloud-Integrated AI Solution

AI NEXUS Hackathon, Jan 2025

- Deployed an AI application on Microsoft Azure (VMs, Storage, App Services); won Hack AI Blitz competing against multiple teams

TracLyst — Progress Tracking & Analytics Platform

- Tracked daily coding activity for multiple users; built dashboards for trend analysis, progress metrics, and automated inactivity alerts

Sunbeam Chatbot — Intelligent Information System

- Scraped and structured web data; built conversational AI interface deployed on cloud with integrated data visualization

ALZ-AI — Healthcare-Oriented AI Project

- Built a modular, explainable AI pipeline for health-data classification with preprocessing and feature engineering on medical datasets

Education

B.Tech — Artificial Intelligence & Data Science, DKTE Engineering Institute

2023 – Present | CGPA: **8.88/10**

Higher Secondary (Class XII), Maharashtra State Board

2022–23 | 69.70%

Secondary School (Class X), Maharashtra State Board

2020–21 | **95.40%**

Certifications

- **AWS Academy Graduate — Data Engineering** (40 hrs) | Amazon Web Services Academy, Apr 2026 | [Credly Verified Badge](#)
- **Microsoft Azure** — Active Azure Student Developer Account | Microsoft
- AI-ML Virtual Internship — Google for Developers × EduSkills
- Introduction to Machine Learning — Coursera | Python Programming — OpenEdge
